2. [Name 2] - [Roll No]
3. [Name 3] - [Roll No]

Department of CSE/IT/AI/DS/AIML

Introduction & Objectives

- **SmartPrep AI:** Advanced web portal designed to streamline career placement preparation based strictly on specific academic qualifications and skills.
- **Eliminating Confusion:** Removes the clutter and confusion caused by generic job platforms.
- **Problem Solved:** Resolves cognitive fatigue by preventing fresh graduates from wasting time on irrelevant job openings.
- **Target Audience:** Fresh graduates, career placement cells, and recruiters.

Core Features & Working Logic

Working Logic

Profiles submitted are automatically filtered by backend algorithms mapping corporate hiring structures to display exact test patterns.

AI Mock Interviews

Integrates the Gemini API to conduct dynamic, real-time mock interviews with immediate performance feedback.

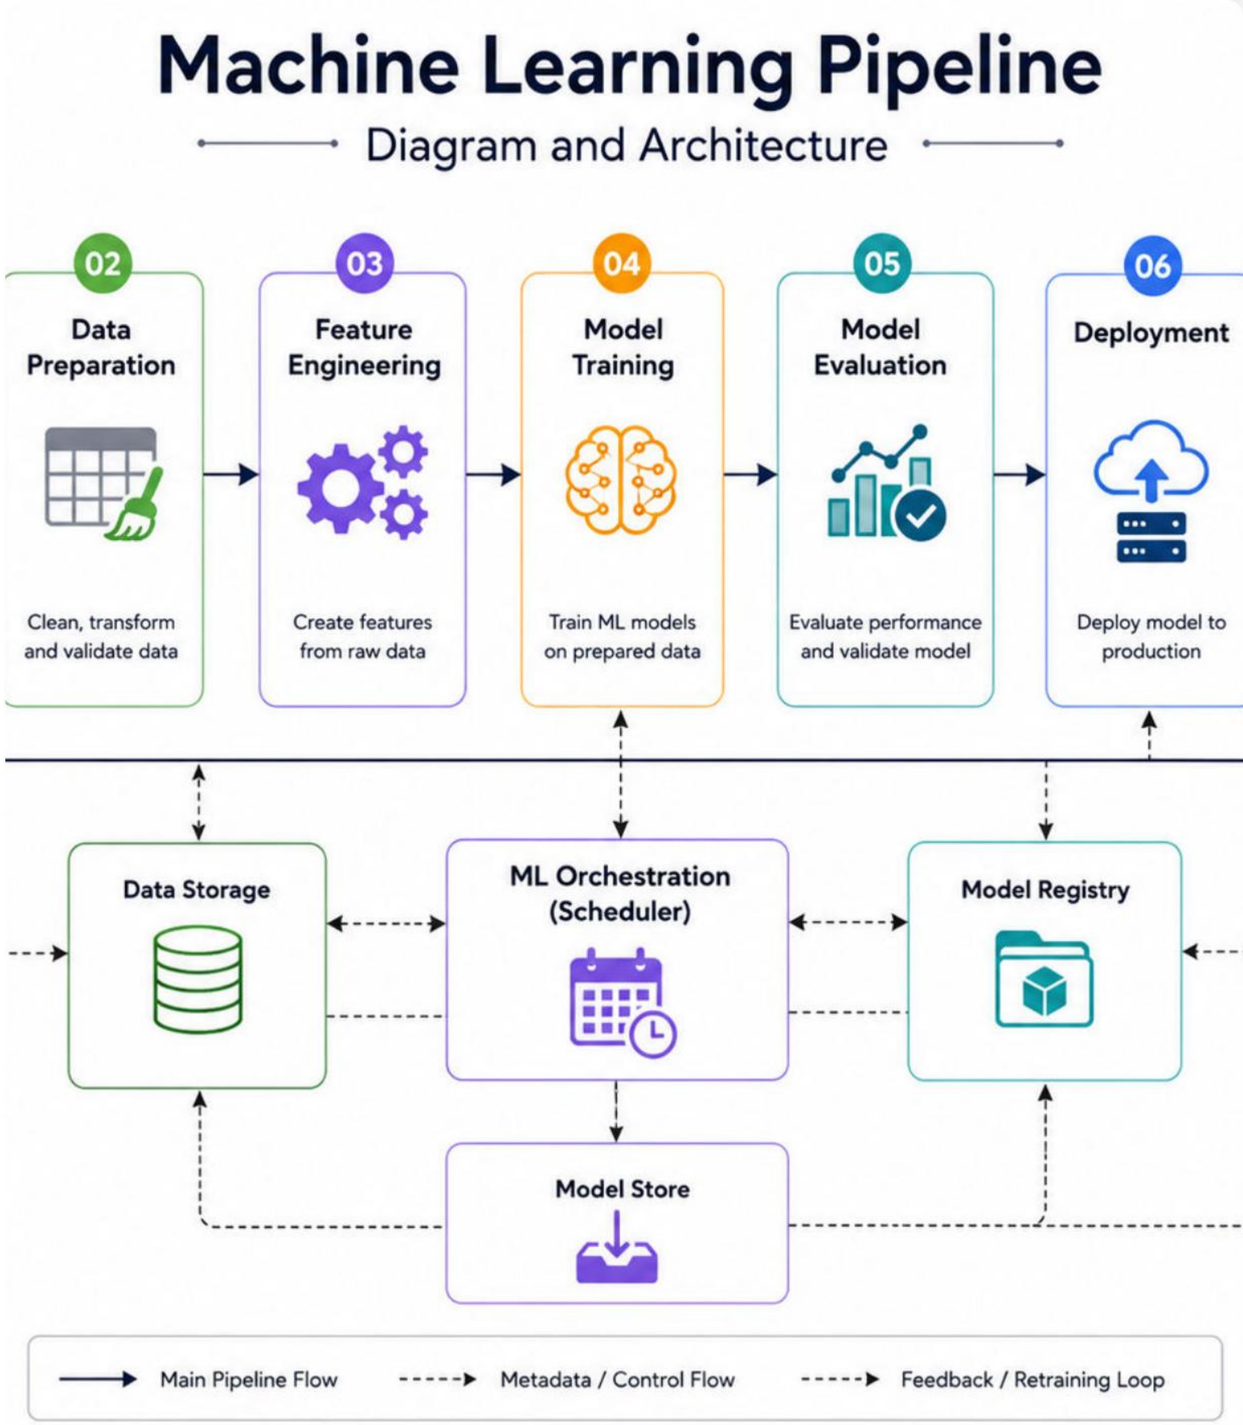

Job Search & Tracker

Features an automated job search engine and a customized recruitment tracker for seamless career progression.

System Architecture

Robust workflow engineered for intelligent matchmaking:

- **Profile Submission:** Users upload qualifications and skill profiles.
- **Backend Algorithm:** Filters and maps corporate hiring structures.
- **Gemini API Intelligence:** Powers real-time dynamic interview simulations.
- **Recruitment Tracking:** Centralized dashboard for applications.

Technology Stack

- **Frontend:** React.js, HTML, and CSS for a responsive, modern user interface.
- **Backend:** Python (Django / Flask) handling core logic and data pipelines.
- **Database:** MySQL database for secure and structured data storage.
- **Artificial Intelligence:** Gemini API for real-time interview intelligence and evaluation.

Questions?

Thank you for your attention!
